

# REDUCE CLEANING TIME BY AS MUCH AS 80%

Dirt, soot, grease, and oil build up in production facilities. This causes machinery to function improperly and can create an unsafe working environment. Shutting down production lines for cleaning is costly and time consuming. Here are a few of the proven applications for Cold Jet Dry Ice Blasting:

- Forklifts
- Pipes and Hoses
- Motors / Electrical Boxes
- Conveyors
- Cooling Fans
- General Equipment & Facility

Forklift maintenance made easy with Cold Jet dry ice blasting.

- Reduce cleaning downtime
- 24/7 technical support
- Environmentally friendly
- No secondary waste
- Eliminate wear and tear
- Non-abrasive process
- Clean on-line
