

REDUCE CLEANING TIME BY AS MUCH AS 80%

Over time, injection mold halves build up a layer of plastic compound, which leads to blemishes or glossing on the final product or affects the release of the part from the mold. Here are a few of the proven applications for Cold Jet Dry Ice Blasting:

- Mold Halves
- Blow Mold
- Urethane
- Extrusion Mold
- Injection Mold
- Thermoform Mold
- Plastic Injection Screw Barrel

Clean molds hot and in place with Cold Jet Dry Ice Blasting.

Easily removes release agents from molds.

Cold Jet's non-abrasive process will not damage molds.

- Reduce production downtime
- Reduce cleaning time
- Reduce labor cost
- Clean hot and in-place
- Non-abrasive
- Environmentally safe
- 24/7 Customer Support
- Non-conductive
